The students are expected to approach the respective Faculty Advisor(s), at least once in a week, to discuss about their academic program and progress and seek advice and clarifications on all related issues.

The Faculty Advisors are expected to:

- Review the academic progress and plans of the students
- Provide advice and guidance to advance the students' academic and professional goals in directions most desired by them
- Provide support and attention in times of discouragement as well as success, and be mindful of signs of emotional and physical distress, offer suggestions for enhancing their skills and abilities to succeed
- Encourage students to try new techniques, expand their skills and discuss their ideas by providing a model of commitment, productivity and professional responsibilities.
